USER GUIDE

Membership managers

For: Membership Manager role

Version of 26 October 2026

For: the **Membership Manager** role. You approve members, keep the organisation, expert and alumni directories accurate, and handle incoming requests.

You are notified when someone registers, creates an expert profile, or sends a request.

Approve new members

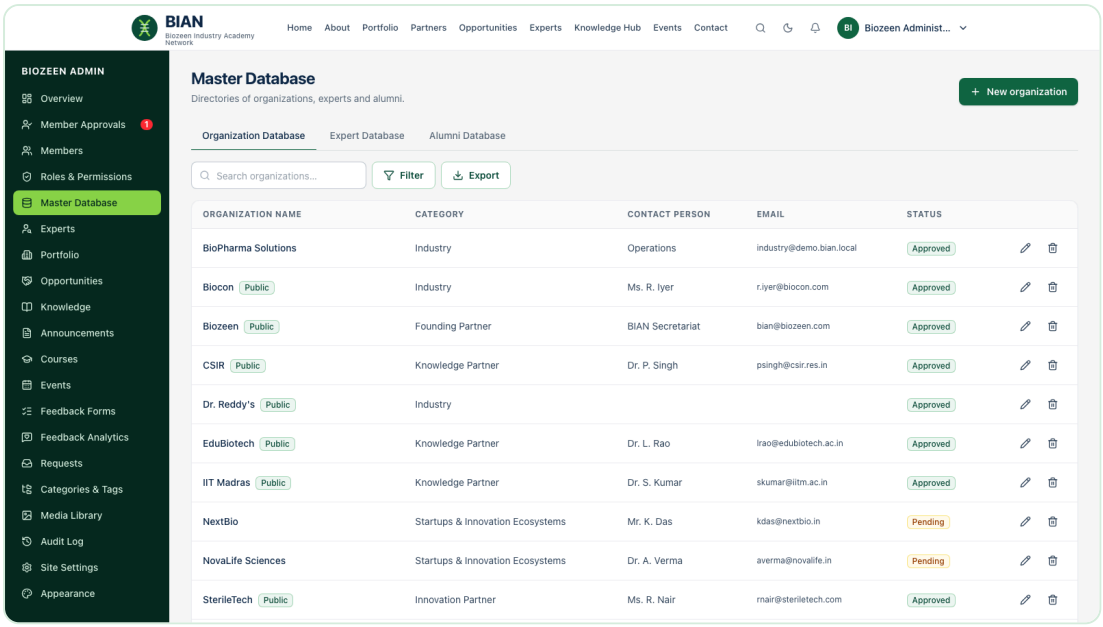

1. **Member Approvals** lists pending registrations, and shows whether each person has verified their email.
2. Check the details. For organisation registrations, check the organisation name.
3. Click **Approve**. The suggested roles are *Member* plus the category role, for example *Student*. Adjust them if needed, then **Approve member**.
4. The member is notified and can sign in. A pending organisation created at registration is approved at the same time, but stays **internal** until you make it public in the Master Database.
5. Use **Reject** for registrations that don't qualify.

You can assign audience roles. Roles that grant admin access need an administrator with role-management rights.

Manage members

Members: search by name or email and filter by category or status. Open a member to change their category, roles, organisation or status. Setting the status to *Suspended* or *Inactive* signs them out everywhere at once. **Export** downloads a CSV.

Master Database

The Master Database

Tabs for **Organisations**, **Experts** and **Alumni**, each with search, **Filter** and **Export**.

- **Organisations:** name, type, partner tier (founding, knowledge, industry, innovation), description, logo, website, contact, collaboration areas and initiatives. An organisation appears in the public Partner Ecosystem only when its status is **Approved** and its visibility is **Public partner profile**. Contact details are never shown publicly. An organisation with linked members can't be deleted; mark it *Inactive* instead.
- **Experts:** review new profiles and set the status to **Approved** to list them. The expert is notified. Visibility (public, members only, hidden) stays the expert's choice.
- **Alumni:** members in the Alumni category, with institution and graduation year.

Requests

Requests works as described in the administrator guide: set the status, assign, add internal notes and reply. The member sees your reply under *Requests & Messages* and is notified immediately. Expert-connect requests show which expert was asked for; contact the expert to arrange the introduction.

Things everyone can do

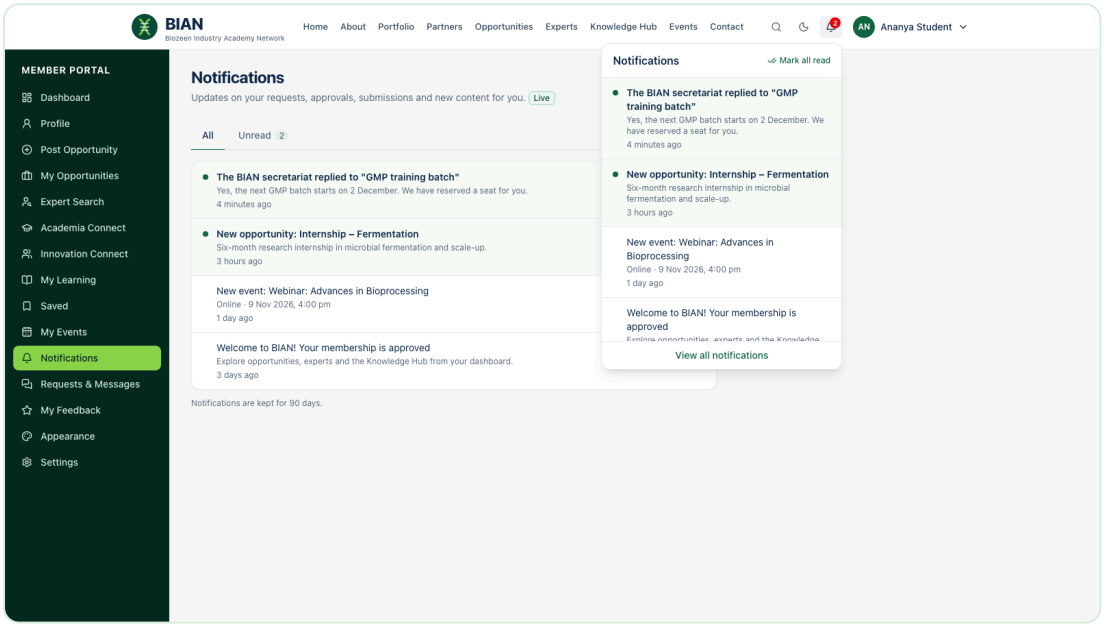

Sign in

1. Go to **Login** (top right) and enter your email and password. Tick **Remember me** on your own device to stay signed in for 30 days; otherwise you stay signed in for one day.
2. **If a sign-in code is asked for**, check your email for a 6-digit code and type it in. The code expires after 10 minutes. You can request a new one with **Resend code** (after 30 seconds). After 5 wrong codes, start again from the password step.
3. You land on your **Member Portal** (`/dashboard`), or on the **Admin workspace** (`/admin`) if you are staff.

Forgot your password? Use **Forgot Password?** on the login page. The emailed link is valid for one hour.

> Whether a sign-in code is required is set by your administrator. Until email is set up, the platform shows codes and links on screen in development only. Live sites must have email configured first.

Notifications

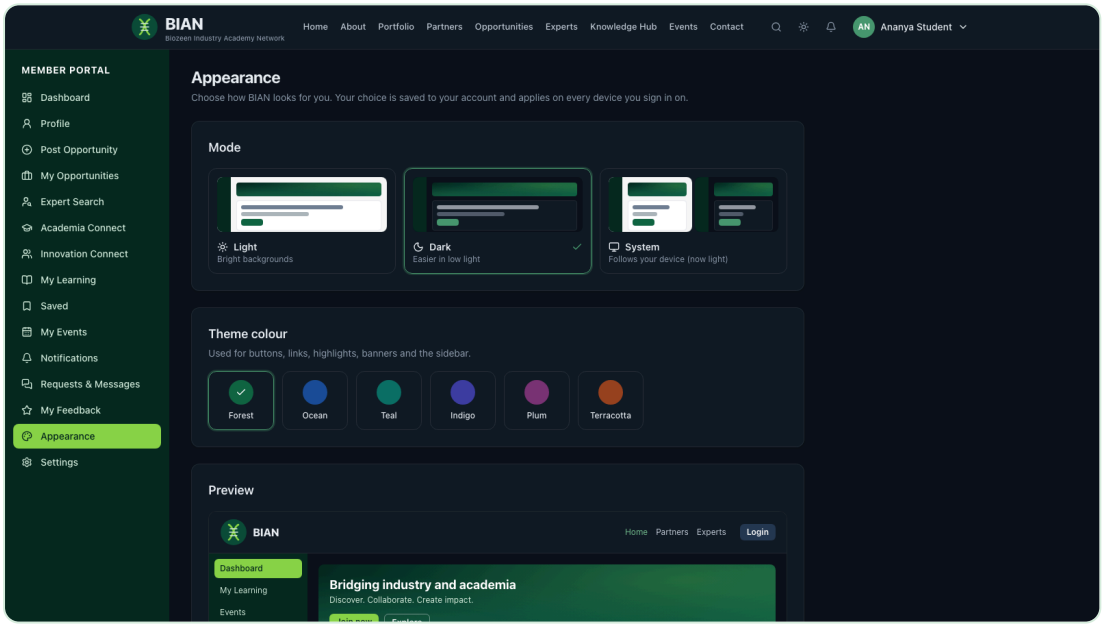

Notifications page with the bell menu open

The **bell** in the header shows how many unread notifications you have. They arrive live, without reloading the page, and also pop up briefly at the bottom of the screen.

- Click the bell to see the latest notifications. Click one to open the page it refers to; it is then marked as read.
- **Mark all read** clears the badge.
- **View all notifications** (or **Dashboard** → **Notifications**) shows the full list with an *Unread* filter. Notifications are kept for 90 days.

You are told when…	Who receives it
Your membership is approved	The new member
The secretariat replies to your request, or its status changes	The member who sent it
Your submitted opportunity is published	The member who submitted it
Your expert profile is approved	The expert
A new announcement, opportunity or event is published for you	Every member in that item's audience
Someone registers and awaits approval	Staff who approve members
A contact, collaboration or expert-connect request comes in	Staff who handle requests
A member submits an opportunity for review	Staff who can publish
A member creates an expert profile	Staff who manage experts

Appearance: theme colour and light/dark mode

Appearance settings in dark mode

Open **Dashboard** → **Appearance**, or **Appearance** in your account menu.

1. Choose a **mode**: *Light*, *Dark*, or *System* (follows your computer or phone).
2. Choose a **theme colour**: Forest (the BIAN default), Ocean, Teal, Indigo, Plum or Terracotta.
3. The **Preview** shows the header, banner, sidebar, cards, buttons and badges in your choice before you apply it.
4. Click **Apply theme**. Your choice is saved to your account and follows you to any device you sign in on. **Reset to default** returns to Forest with System mode.

The **moon/sun** button in the header switches between light and dark mode in one click. It works for visitors too and is remembered on that device.

Account settings

Dashboard → **Settings** lets you change your password (other devices are signed out) or **sign out of all devices**.

Category or role? Your *category* is what you chose when you registered (for example Student). Your *roles* decide what you can see and do. When you are approved you get the **Member** role plus the role for your category. An administrator can add or change roles later.
