BIAN

Biozeen Industry Academy Network

USER GUIDE

Organisation members

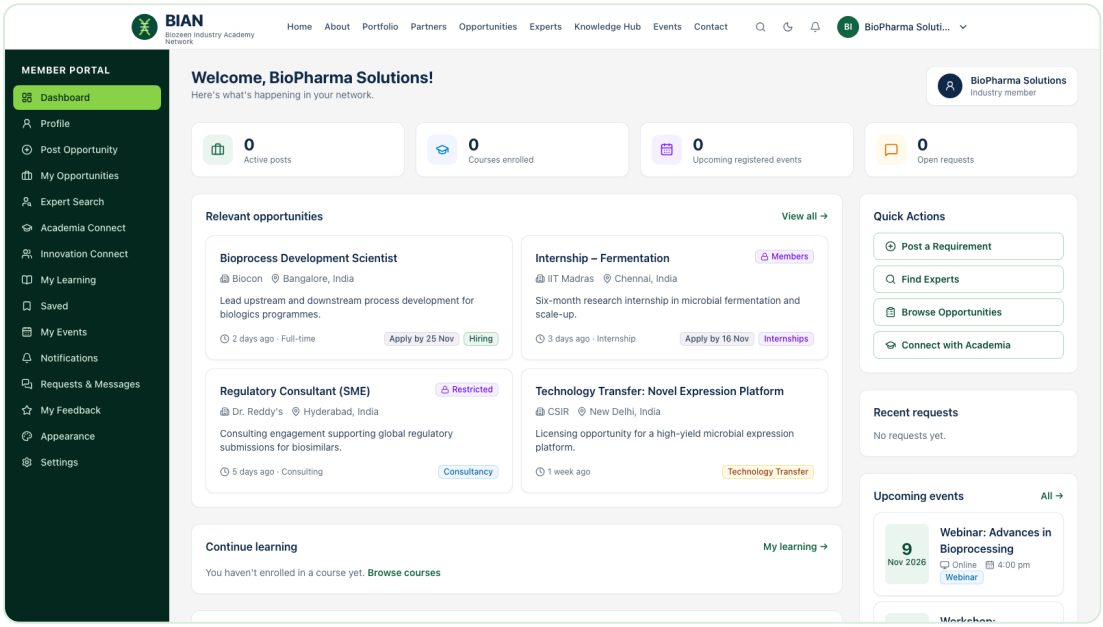

For: Startups & Innovation · Academia & Research · Industry

Version of 26 October 2026

For: representatives of **Startups & Innovation Ecosystems**, **Academia & Research** institutions and **Industry** organisations.

Your account is linked to your organisation. You see members-only content, and anything shared with your organisation or category. You can post requirements, connect with experts and manage your company profile. Sign-in, notifications and appearance are covered in Things everyone can do.

Your Member Portal

An industry member's dashboard

After signing in you land on **Dashboard**. It shows:

- **Counts** of your active posts, courses, registered events and open requests.
- **Relevant opportunities**, which can include listings visible only to members or to your category (marked *Members* or *Restricted*).
- **Quick Actions**: Post a Requirement, Find Experts, Browse Opportunities, Connect with Academia.

- **Recent requests** with secretariat replies, **Upcoming events**, **Continue learning**, the latest knowledge resources and announcements.

The sidebar menu:

Menu	Use it to
Profile	Update your details and your **company profile**
Post Opportunity · My Opportunities	Post a requirement and track its review
Expert Search	Find experts by skill or domain
Academia Connect · Innovation Connect	Browse academic and innovation partners
My Learning · Saved · My Events	Courses, bookmarked items and event registrations
Requests & Messages	Requests you've sent and secretariat replies (notifications are under the bell)
My Feedback	Feedback you have submitted
Settings	Appearance (theme colour, light/dark), password and devices

Post a requirement or opportunity

1. **Dashboard → Post Opportunity.**
2. Enter a clear title and a summary of a few sentences.
3. Choose the type (job, internship, consultancy, funding, technology transfer, collaboration and so on). Add the location, deadline, how to apply (link or email) and any eligibility.
4. Click **Submit for review**. It goes to the BIAN team for review and is listed under **My Opportunities** as *Pending review*.
5. When it is published you get a notification with a link to the live listing. Members in its audience are notified too.

Keep your company profile current

Dashboard → Profile → Company profile. Update the description, website, location and collaboration areas. Your organisation appears in the public **Partner Ecosystem** only after BIAN approves it and makes it public. Internal contact details are never shown publicly.

Connect with an expert

1. Open **Expert Search** (or **Experts** in the header) and open a profile.
2. Click **Request to connect**, choose the purpose (mentoring, consultancy, collaboration, training or other) and describe what you need, then **Send request**.

3. The secretariat coordinates the introduction. Follow progress under **Requests & Messages**; you are notified of each reply.

Learn, register and give feedback

- **Courses:** Knowledge Hub → Courses → **Enroll for free**. Use **Mark as complete** on each lesson; progress shows on your dashboard and under **My Learning**.
- **Events:** open an event and **Register**. Online meeting links appear only after you register. Your registrations are under **My Events**.
- **Save** any opportunity or resource to find it later under **Saved**.
- **Feedback:** rate courses, lessons, events and resources where a feedback form appears. Some forms let you answer anonymously.

Tips

- Does a listing say *Restricted*? It is shared with other categories or organisations. Ask the secretariat if you need access.
- Can't see your organisation's details? Ask the BIAN team to link your account to the organisation in the Master Database.

Things everyone can do

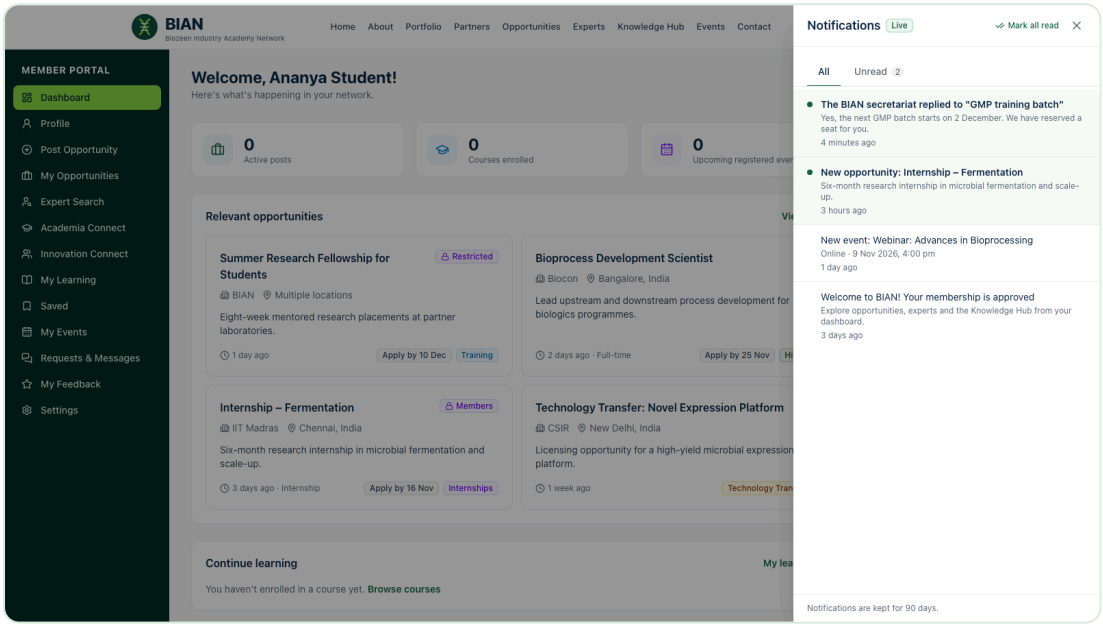

Sign in

1. Go to **Login** (top right) and enter your email and password. Tick **Remember me** on your own device to stay signed in for 30 days; otherwise you stay signed in for one day.
2. **If a sign-in code is asked for**, check your email for a 6-digit code and type it in. The code expires after 10 minutes. You can request a new one with **Resend code** (after 30 seconds). After 5 wrong codes, start again from the password step.
3. You land on your **Member Portal** (`/dashboard`), or on the **Admin workspace** (`/admin`) if you are staff.

Forgot your password? Use **Forgot Password?** on the login page. The emailed link is valid for one hour.

> Whether a sign-in code is required is set by your administrator. Until email is set up, the platform shows codes and links on screen in development only. Live sites must have email configured first.

Notifications

The notifications panel open on the right

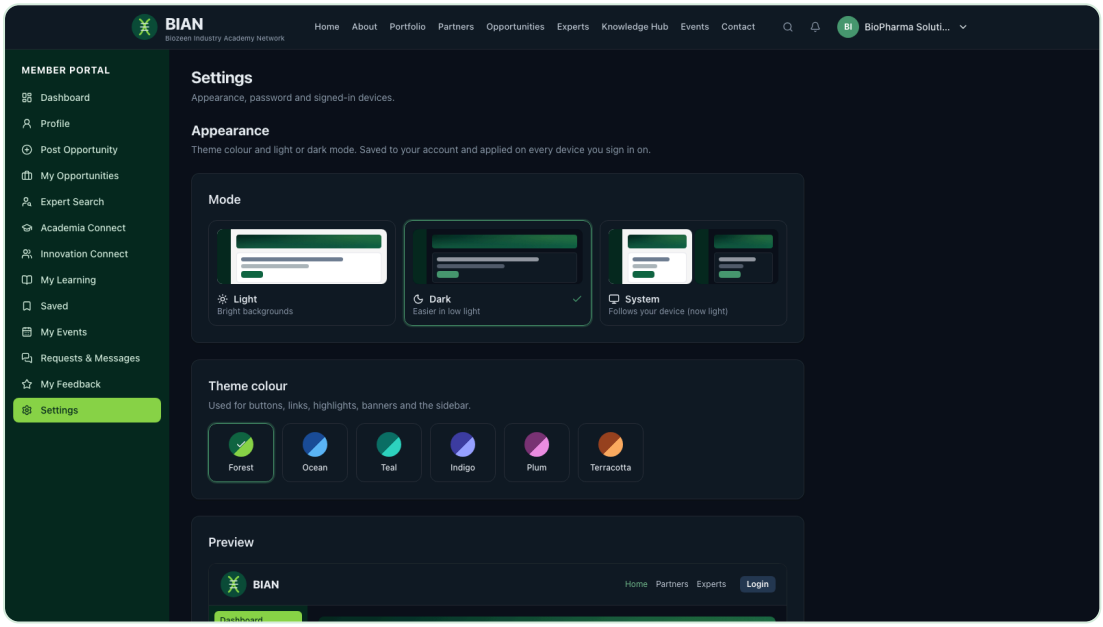

The **bell** in the header shows how many unread notifications you have. They arrive live, without reloading the page, and also pop up briefly at the bottom of the screen.

- Click the bell to open the **notifications panel** on the right. Switch between **All** and **Unread**.
- Click a notification to open the page it refers to; it is then marked as read.
- **Mark all read** clears the badge. Notifications are kept for 90 days.

You are told when…	Who receives it
Your membership is approved	The new member
The secretariat replies to your request, or its status changes	The member who sent it

You are told when…	Who receives it
Your submitted opportunity is published	The member who submitted it
Your expert profile is approved	The expert
A new announcement, opportunity or event is published for you	Every member in that item's audience
Someone registers and awaits approval	Staff who approve members
A contact, collaboration or expert-connect request comes in	Staff who handle requests
A member submits an opportunity for review	Staff who can publish
A member creates an expert profile	Staff who manage experts

Settings: appearance, password and devices

The Settings page with appearance options

Open **Settings** from your account menu (top right), or from the sidebar of your workspace.

Appearance

1. Choose a **mode**: *Light*, *Dark*, or *System* (follows your computer or phone).
2. Choose a **theme colour**: Forest (the BIAN default), Ocean, Teal, Indigo, Plum, Terracotta, or **Custom** (the last option) to pick any colour. With a custom colour, every shade is worked out from your pick, and very light colours are darkened so button text stays readable.
3. The **Preview** shows the header, banner, sidebar, cards, buttons and badges in your choice before you apply it.
4. Click **Apply theme**. Your choice is saved to your account and follows you to any device you sign in on. **Reset to default** returns to Forest with System mode.

Buttons, links, banners, the sidebar and highlights such as the selected menu item all follow the theme colour you choose. Visitors who aren't signed in keep their choice only until they close the browser tab.

Action icons use the same colours everywhere: **View** is blue, **Edit** amber, **Delete** red and **Analytics** violet.

Security: change your password (other devices are signed out), or **sign out of all devices**.

Category or role? Your *category* is what you chose when you registered (for example Student). Your *roles* decide what you can see and do. When you are approved you get the **Member** role plus the role for your category. An administrator can add or change roles later.
