USER GUIDE

Individual members

For: Individual Experts (SME) · Alumni · Students · Professionals

Version of 26 October 2026

For: Individual Experts (SME), **Alumni**, **Students** and **Professionals**.

Sign-in, notifications and appearance are covered in Things everyone can do.

What your category gives you

Every approved member gets the **Member** role plus the role for their category:

Category	Roles on approval	You can
Individual Expert (SME)	Member, Individual Expert	See members-only content and content for experts, post opportunities, request expert introductions
Alumni	Member, Alumni	The same, plus content for alumni
Professional	Member, Professional	The same, plus content for professionals
Student	Member, Student	The same, plus content for students

The BIAN team can grant extra roles, for example access to a closed programme, or narrow a member's roles.

Your Member Portal

Dashboard gathers what's relevant to you: opportunities you can apply for, courses in progress, events you've registered for, announcements, and replies to your requests. The menu matches the organisation guide.

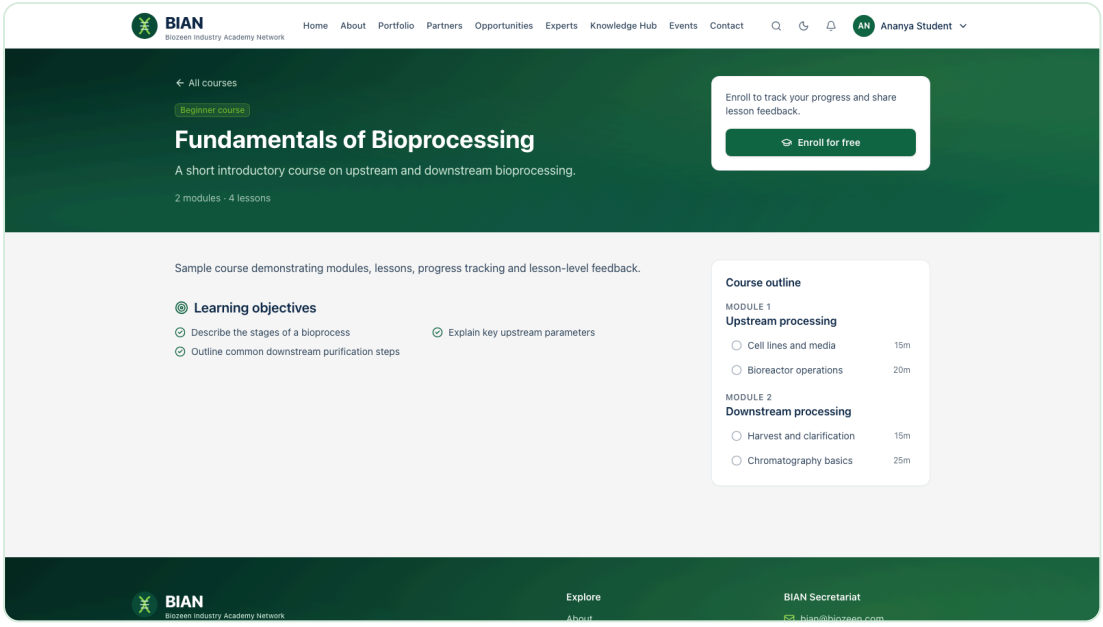

Find and apply for opportunities

1. **Opportunities** in the header, or **View all** on your dashboard.
2. Filter by type (jobs, internships, fellowships, funding…), location or organisation, or search.
3. Open a listing to read the details and eligibility. Use **Apply** (or the email shown) before the deadline.

4. **Save** listings you want to come back to.

New opportunities published for your audience arrive as notifications.

Learn

A course page

- **Knowledge Hub** has insights, research, regulatory guidance and the learning centre. Items marked *Members* open once you are signed in.
- **Courses: Enroll for free**, work through the modules and lessons, and use **Mark as complete** on each lesson. **My Learning** shows your progress.
- Leave **feedback** on lessons and courses. It helps the team improve them, and you can often answer anonymously.

Events

Open an event and **Register**. Meeting links for online events are shown to registered attendees only. **My Events** lists your registrations. After an event starts, a feedback form may appear on its page.

Get help or an introduction

- **Contact** sends a question, collaboration idea or training request to the secretariat.
- **Experts → Request to connect** asks for an introduction to an expert.
- Replies appear under **Requests & Messages**, and you are notified of each one.

Alumni

Keep your **institution** and **graduation year** up to date under **Profile**. The BIAN team uses them for the alumni directory and alumni programmes.

Become a listed expert

Individual Experts, Alumni and Professionals often list themselves in the Experts Network. See the experts guide.

Things everyone can do

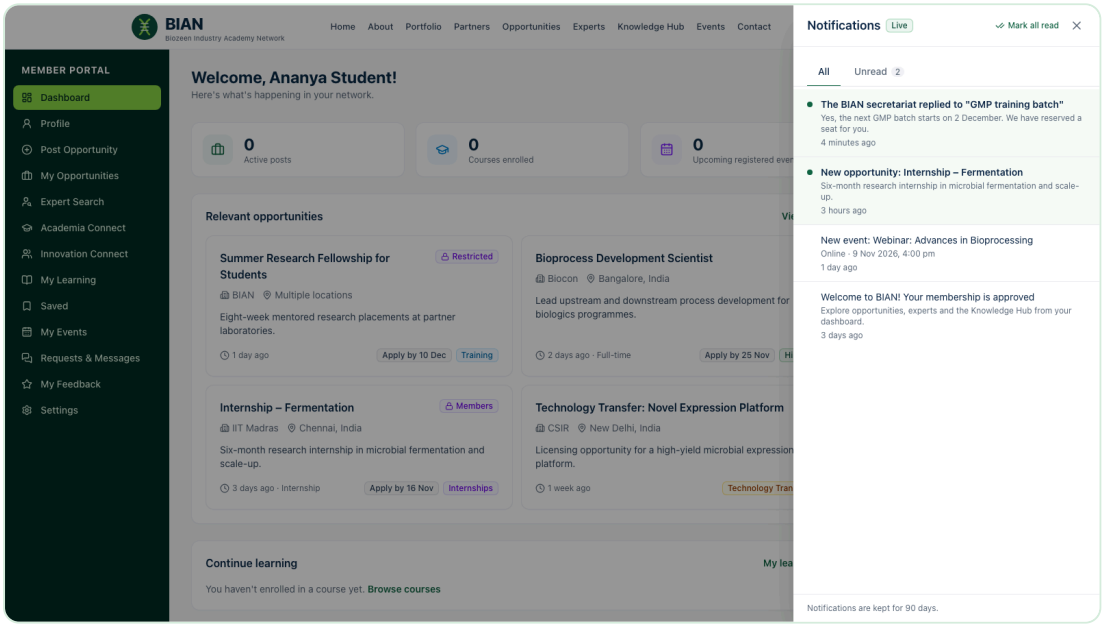

Sign in

1. Go to **Login** (top right) and enter your email and password. Tick **Remember me** on your own device to stay signed in for 30 days; otherwise you stay signed in for one day.
2. **If a sign-in code is asked for**, check your email for a 6-digit code and type it in. The code expires after 10 minutes. You can request a new one with **Resend code** (after 30 seconds). After 5 wrong codes, start again from the password step.
3. You land on your **Member Portal** (`/dashboard`), or on the **Admin workspace** (`/admin`) if you are staff.

Forgot your password? Use **Forgot Password?** on the login page. The emailed link is valid for one hour.

> Whether a sign-in code is required is set by your administrator. Until email is set up, the platform shows codes and links on screen in development only. Live sites must have email configured first.

Notifications

The notifications panel open on the right

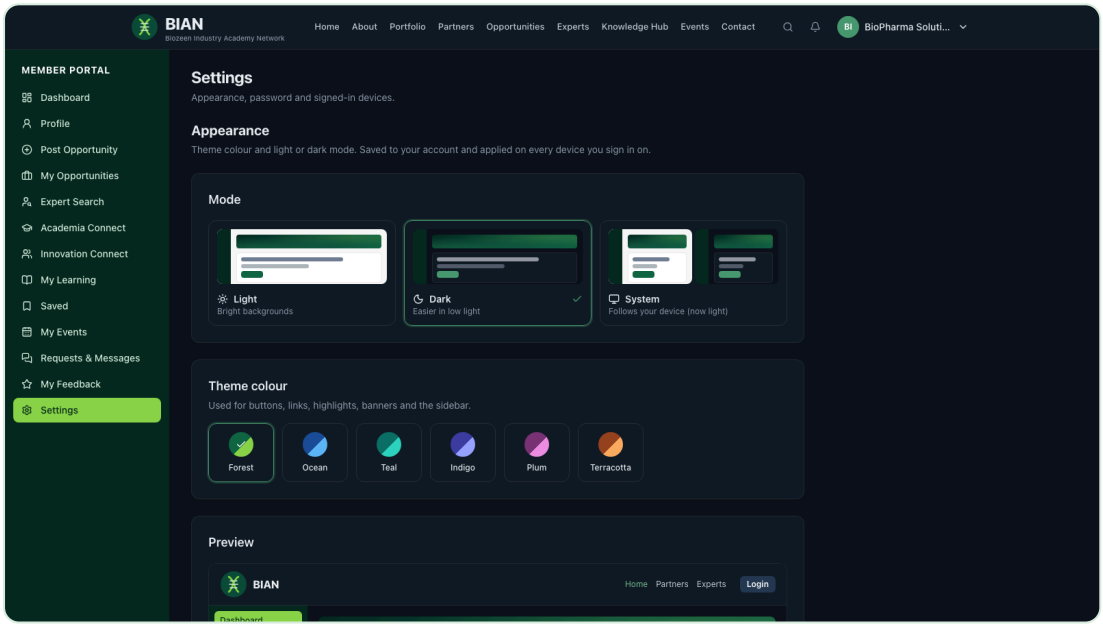

The **bell** in the header shows how many unread notifications you have. They arrive live, without reloading the page, and also pop up briefly at the bottom of the screen.

- Click the bell to open the **notifications panel** on the right. Switch between **All** and **Unread**.
- Click a notification to open the page it refers to; it is then marked as read.
- **Mark all read** clears the badge. Notifications are kept for 90 days.

You are told when…	Who receives it
Your membership is approved	The new member
The secretariat replies to your request, or its status changes	The member who sent it

You are told when…	Who receives it
Your submitted opportunity is published	The member who submitted it
Your expert profile is approved	The expert
A new announcement, opportunity or event is published for you	Every member in that item's audience
Someone registers and awaits approval	Staff who approve members
A contact, collaboration or expert-connect request comes in	Staff who handle requests
A member submits an opportunity for review	Staff who can publish
A member creates an expert profile	Staff who manage experts

Settings: appearance, password and devices

The Settings page with appearance options

Open **Settings** from your account menu (top right), or from the sidebar of your workspace.

Appearance

1. Choose a **mode**: *Light*, *Dark*, or *System* (follows your computer or phone).
2. Choose a **theme colour**: Forest (the BIAN default), Ocean, Teal, Indigo, Plum, Terracotta, or **Custom** (the last option) to pick any colour. With a custom colour, every shade is worked out from your pick, and very light colours are darkened so button text stays readable.
3. The **Preview** shows the header, banner, sidebar, cards, buttons and badges in your choice before you apply it.
4. Click **Apply theme**. Your choice is saved to your account and follows you to any device you sign in on. **Reset to default** returns to Forest with System mode.

Buttons, links, banners, the sidebar and highlights such as the selected menu item all follow the theme colour you choose. Visitors who aren't signed in keep their choice only until they close the browser tab.

Action icons use the same colours everywhere: **View** is blue, **Edit** amber, **Delete** red and **Analytics** violet.

Security: change your password (other devices are signed out), or **sign out of all devices**.

Category or role? Your *category* is what you chose when you registered (for example Student). Your *roles* decide what you can see and do. When you are approved you get the **Member** role plus the role for your category. An administrator can add or change roles later.
