BIAN

Biozeen Industry Academy Network

USER GUIDE

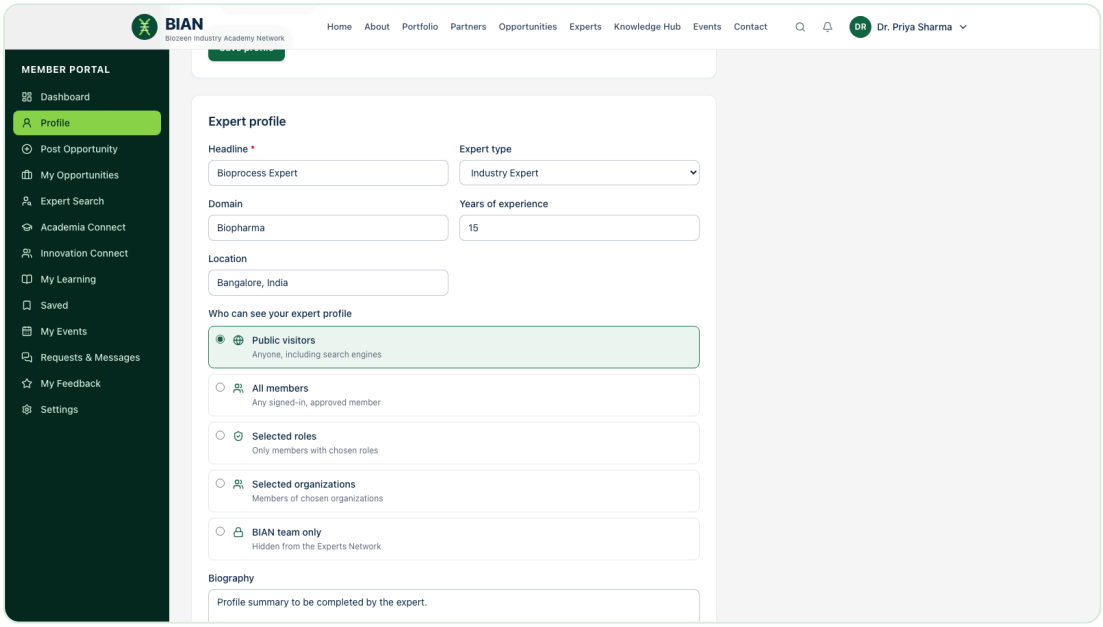

Experts

For: Members listed in the Experts Network

Version of 26 October 2026

For: any member who wants to be found in the **Experts Network**, usually Individual Experts (SME), Professionals and Alumni.

Create your expert profile

The profile page with the expert profile section

1. **Dashboard → Profile → Expert profile.**
2. Add a one-line **headline**, a short **bio**, your **expert type** (industry expert, research expert, trainer, consultant or mentor), your domain, **skills**, **expertise areas**, years of experience and location.
3. Under **Who can see your expert profile**, choose an audience. These are the same options the BIAN team uses for its own pages:
   - **Public visitors**: anyone, including visitors.
   - **All members**: any signed-in member.
   - **Selected roles**: only members with the roles you pick, for example *Student* or *Industry Member*.
   - **Selected organizations**: only members of the organisations you pick.

    - **BIAN team only**: hidden from the Experts Network. Useful while you prepare your profile.

4. Tick **Show my email address to signed-in members** only if you want members to contact you directly. Otherwise all contact goes through the secretariat.
5. Tick **Available for mentoring** if you take mentees.
6. Click **Save**. New profiles are **reviewed by the BIAN team**. You get a notification when yours is approved and listed.

You can update your profile at any time. Audience changes take effect immediately, in listings, profile pages and site search.

When someone wants to connect

Members send connect requests (mentoring, consultancy, collaboration, training) through your profile. These go to the **BIAN secretariat**, not straight to you. The secretariat contacts you to arrange the introduction. This protects your time and your contact details.

Everything else

As an expert you are still a member. See the individual members guide for opportunities, learning and events.

Things everyone can do

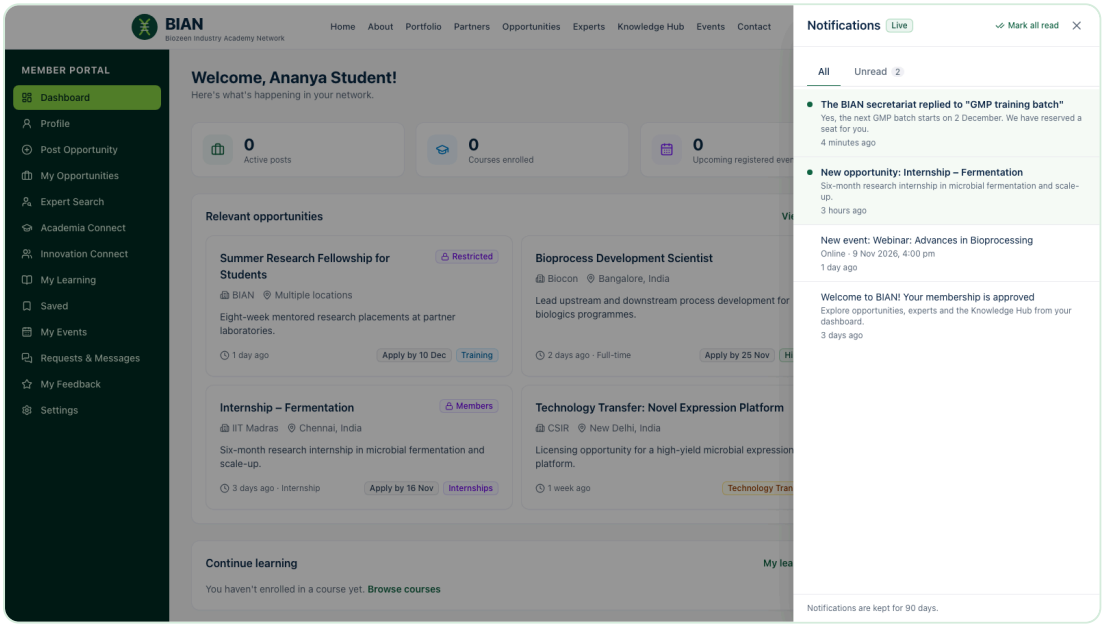

Sign in

1. Go to **Login** (top right) and enter your email and password. Tick **Remember me** on your own device to stay signed in for 30 days; otherwise you stay signed in for one day.
2. **If a sign-in code is asked for**, check your email for a 6-digit code and type it in. The code expires after 10 minutes. You can request a new one with **Resend code** (after 30 seconds). After 5 wrong codes, start again from the password step.
3. You land on your **Member Portal** (`/dashboard`), or on the **Admin workspace** (`/admin`) if you are staff.

Forgot your password? Use **Forgot Password?** on the login page. The emailed link is valid for one hour.

> Whether a sign-in code is required is set by your administrator. Until email is set up, the platform shows codes and links on screen in development only. Live sites must have email configured first.

Notifications

The notifications panel open on the right

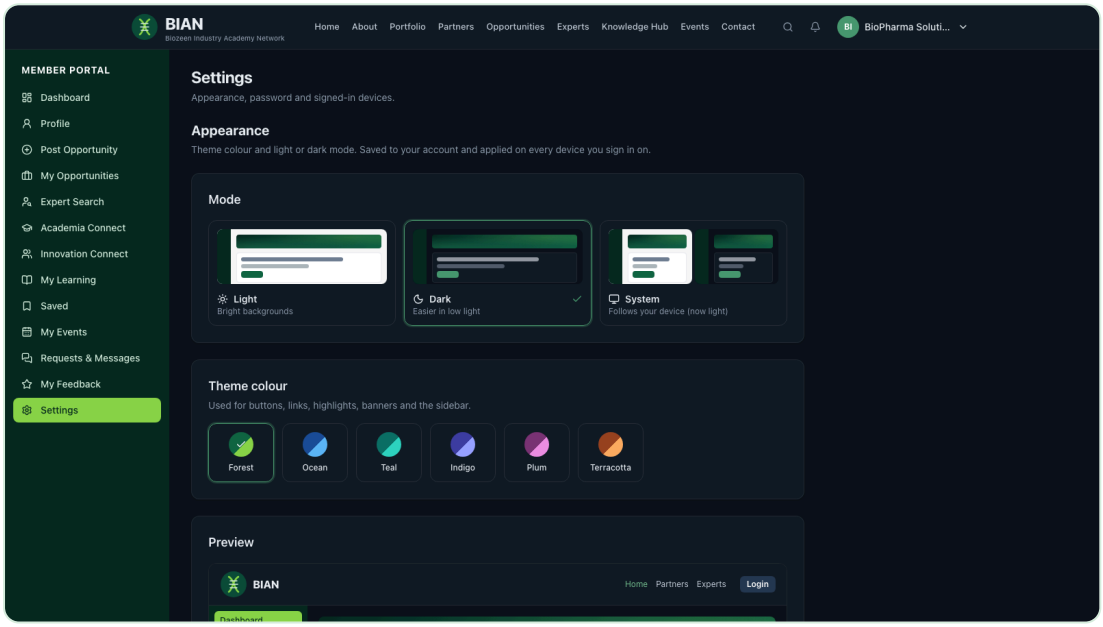

The **bell** in the header shows how many unread notifications you have. They arrive live, without reloading the page, and also pop up briefly at the bottom of the screen.

- Click the bell to open the **notifications panel** on the right. Switch between **All** and **Unread**.
- Click a notification to open the page it refers to; it is then marked as read.
- **Mark all read** clears the badge. Notifications are kept for 90 days.

You are told when…	Who receives it
Your membership is approved	The new member
The secretariat replies to your request, or its status changes	The member who sent it

You are told when…	Who receives it
Your submitted opportunity is published	The member who submitted it
Your expert profile is approved	The expert
A new announcement, opportunity or event is published for you	Every member in that item's audience
Someone registers and awaits approval	Staff who approve members
A contact, collaboration or expert-connect request comes in	Staff who handle requests
A member submits an opportunity for review	Staff who can publish
A member creates an expert profile	Staff who manage experts

Settings: appearance, password and devices

The Settings page with appearance options

Open **Settings** from your account menu (top right), or from the sidebar of your workspace.

Appearance

1. Choose a **mode**: *Light*, *Dark*, or *System* (follows your computer or phone).
2. Choose a **theme colour**: Forest (the BIAN default), Ocean, Teal, Indigo, Plum, Terracotta, or **Custom** (the last option) to pick any colour. With a custom colour, every shade is worked out from your pick, and very light colours are darkened so button text stays readable.
3. The **Preview** shows the header, banner, sidebar, cards, buttons and badges in your choice before you apply it.
4. Click **Apply theme**. Your choice is saved to your account and follows you to any device you sign in on. **Reset to default** returns to Forest with System mode.

Buttons, links, banners, the sidebar and highlights such as the selected menu item all follow the theme colour you choose. Visitors who aren't signed in keep their choice only until they close the browser tab.

Action icons use the same colours everywhere: **View** is blue, **Edit** amber, **Delete** red and **Analytics** violet.

Security: change your password (other devices are signed out), or **sign out of all devices**.

Category or role? Your *category* is what you chose when you registered (for example Student). Your *roles* decide what you can see and do. When you are approved you get the **Member** role plus the role for your category. An administrator can add or change roles later.
